### Create your own product

Length	Min 1,40 m to Max 2 ,50 m
Material	S250GD or S250GD XCarb $^{\text{TM}}$ (low carbon steel)
Coating	Z275 (NF EN 10142) or ZAM (Zinc, Aluminium, Magnesium)
Thickness	Only 1.5 mm
Hooks Types	8,5 X 19 mm with support
Hooks Position	Face to face
Packaging	300 pieces per batch

Why choose SLPA® posts?

VITICULTURE

# RAIL 35x30

**Row Post** with hooks

### **Accessories**

#### Spreader

Adapted to the post. The spreader allows you to keep the moving wires in a lower position when the vines are dormant. Save time during lifting.

#### Post cap

Adapted to the post. It protects the top of the post when pressing in.

#### **Recommendations for use**

When installing posts with a post driver, make sure to use the appropriate post cap. In order to guarantee optimal support, the recommended installation depth is 1/3 length of the post. For securing fixed wires, knock the hooks down with a hammer.

Recommended maximum interspacing: 5 m.

For high acidity soils, ZAM coating is recommended.
