RAIL 35x30

Row Post
with hooks

Accessories

Spreader

Adapted to the post.
The spreader allows you to keep the moving wires in a lower position when the vines are dormant. Save time during lifting.

Post cap

Adapted to the post. It protects the top of the post when pressing in.

Recommendations for use

When installing posts with a post driver, make sure to use the appropriate post cap.
In order to guarantee optimal support, the recommended installation depth is 1/3 length of the post.
For securing fixed wires, knock the hooks down with a hammer.
Recommended maximum interspacing : 5 m.
For high acidity soils, ZAM coating is recommended.

Notes
