VITICULTURE

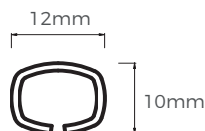

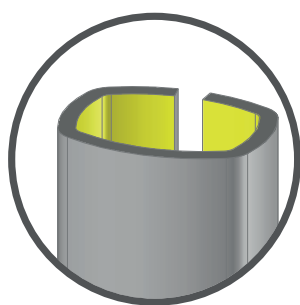

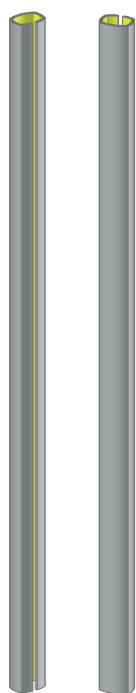

## Steel Stake

### Open profile steel stake

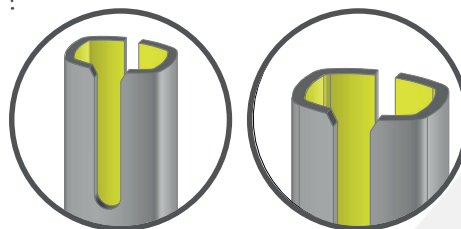

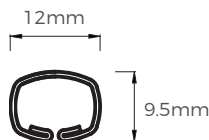

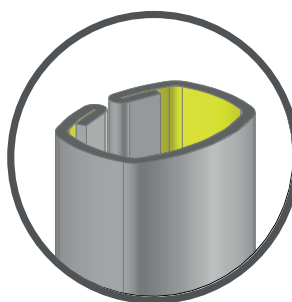

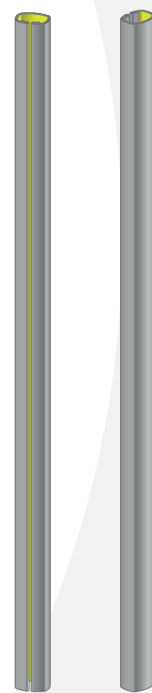

**SLPA**  
INDUSTRIE & AGROFOURNITURES

### T12 1 and 1.2mm

### T12 0.6 and 0.7mm

Example of notch for wires up to 3.5mm on request

### Features:

- Developed from 29mm to 37mm
- 2 **profile designs** depending on thickness:
  - single for thicknesses of 1 and 1.2mm (left views)
  - folded edges for thicknesses of 0.6 and 0.7mm (right views)
- 2 **notch sizes** at the top of the stake depending on wire diameter
- designed for use with TRP systems (Short Pruning Technique)\*

### Benefits of the T12 tutor:

- Open tubular design allows water drainage
- Multifunctional and easy to install
- Lightweight, easy to handle and economical
- Guaranteed strength and durability
- Available in 1.5m, 2m, 3m, 4m and 5m lengths

### Custom configuration available

<b>Length</b>	Min 0,5m to Max 1,50m
<b>Material</b>	S250GD
<b>Coating</b>	Z275 galvanized coating (according to current standards)
<b>Thickness</b>	1 ou 1.2mm // 0.6 ou 0.7mm
<b>Packaging</b>	Bundles of 1,500 units (sub-bales available on request)
<b>Notch</b>	Notching available on request for wires up to 35mm diameter

\* technical specifications specific to TRP systems

### Why choose SLPA® posts ?

Customization

Resistance

Weight

Life time

Productivity

Eco-friendly

100% recyclable
